RE: The Norman Corporation
Resource Recovery Certification RR0180
Classification - U

Dear Mr. Buha:

This letter is to inform you that the Department of Natural Resources has completed the review of your application for resource recovery. After a review of your application, the department hereby certifies The Norman Corporation to distill spent solvent in accordance with the following conditions:

1. The operator shall comply with 10 CSR 25-9.020 and all plans and processes described in the certified resource recovery application.
2. The operator shall distill only those wastes listed in the application and in the amounts specified.
3. Still bottoms shall be disposed of as a hazardous waste at an authorized hazardous waste management facility.

If you have any questions regarding compliance with your certification, please contact Mr. David L. Maschler at (573) 751-3176 (our area code has changed from 314 to 573).

Sincerely,

HAZARDOUS WASTE PROGRAM

**CERTIFIED
RESOURCE RECOVERY FACILITY**

Certification for resource recovery is issued to:

The Norman Corporation

For the facility located:

5900 North Broadway
St. Louis, MO 63147

CERTIFICATION NUMBER: RR0180

A copy of this certificate must be available at the facility during operation.

This certification is valid from the date signed for a period of two years, in accordance with the Certified Resource Recovery Facility Application Form approved by the department. Only wastes listed in the approved application are to be processed at this facility.

It is understood that the acceptance and use of this certification subjects the operator of the above named facility to the applicable requirements of the Missouri Hazardous Waste Management Law and the rules thereunder specifically 10 CSR 25-9.020.

This certification applies only to resource recovery facilities certified under Missouri's Hazardous Waste Management Law; it does not apply to other environmentally regulated areas.
